# 廚房壹號

## CK One Limited

### 公司簡介

廚房壹號有限公司為香港首間獲發 ISO 22000 食品安全管理系統認證 (生產低溫慢煮產品) 之食品製造廠，本公司專業團隊一直致力於產品研發並配合專業機械應用、冷鏈物流等，務求提供多元化服務，滿足客戶要求。

我們大部份產品主要以低溫慢煮技術 (Sous Vide) 生產 (又名「真空低溫烹調法」)。將食物密封放入水中，以攝氏 50 至 80 度的穩定溫度慢慢煮熟，能保存食物的顏色、鮮味和營養，把食物真空密封後烹煮，可令水中的熱力快速傳至食物，並減少食物在貯存期間受到交叉污染的風險，從而延長食物的保質期。真空低溫烹調法能配製出傳統烹調法不能達致的食物品質，例如真空低溫烹調法能抑制在食物氧化過程中產生的異味，以及減少在烹煮時水分和味道揮發物的蒸發流失，令食物保存原汁原味。加上冷鏈配送，令食物保存達至最佳狀態。

### Company Introduction

CK One Limited was the first food factory in Hong Kong to obtain ISO 22000 food safety management system certification (producing sous vide products). Our professional team makes dedicated effort in product development, leveraging on professional machinery and cold chain logistics to provide a wide range of services to satisfy the varied needs of our customers.

Most of our products are prepared by the sous vide process (low-temperature cooking under vacuum). Food is sealed in a bag and cooked slowly in water at a stable temperature of 50°C to 80°C until done. This method can preserve the colour, fresh taste and nutrients of food. Sealing food in a sealed vacuum bag enables rapid heat transmission and reduces the risk of cross contamination during storage of food, thus extending its shelf life. Sous vide can achieve food quality that traditional cooking fails to produce. For example, sous vide can inhibit the food odour arising from oxidation and reduce evaporation of moisture and volatile flavour during cooking, so that food can retain its original juice and taste. And with the assurance of cold chain delivery it is preserved in tip top condition.

# Superfood Oil Ex

## Description

At a seminar on fats and fatty acids in human nutrition held in Rome, FAO and WHO published the recommended fatty acid ratios for natural cooking oil : Omega-3 : Omega-6 = 1.4 and MUFA : PUFA : SFA = 1 : 1 : 1. Our Superfood Oil Ex for adults is the only natural cooking oil on the market that meets both suggested proportions. This natural cooking oil is not artificial synthesised with chemical additives. The patent formula has won many international awards.

Superfood Oil Ex is a supreme cooking oil that offers nutrients, balanced fatty acids and great taste. Prepared with an authentic European oil making method, it is added with rosemary for a refreshing herbal aroma. Each of the eight raw ingredients has its own health benefits. #### Company Introduction

Tai Po Chun Hing was founded in 1967 by Mr. Chan Nam-fui who built a successful business with traditional pounded beef in a cottage within the Kowloon Walled City in the 1950s.

Authentic, natural, and healthy produce with a generous helping of service : this was the promise that Chan held to himself, and stringent standards for food ingredient quality have been in place since day one. Only pure meat was used, without additives like salicylic acid, artificial colouring, preservatives or harmful chemicals. Chun Hing controlled temperature to preserve the natural springiness and true taste of meat. Sealing in the natural bite, flavour and juice, Chun Hing's honest meat products are really top of the class.

Mr. Pius Chan, the second-generation helmsman, took over management in 2007 and has invigorated tradition food artisanship with innovation. In pursuit of a healthier perfect production, Chun Hing developed a new "No Additive Series" that is 100% free of MSG, preservatives, artificial colouring and artificial flavours. It is our aspiration to supply the public with healthy and delicious meatballs for many more 50 years.

### Company Introduction

Yeung's Company Limited is a noodle manufacturer with a history of more than 50 years. During the early years, all the noodle masters originated from the Guangzhou region who passed on the unique taste and style of Guangzhou noodle. For decades, we have embraced a vision of continuing the traditional noodle making process and infusing it with innovative ideas. No effort is spared to upgrade production techniques and build a portfolio of diverse product series. Having studied theories of food and healthy living in recent years, Yeung's production experts created a new wholesome product line which enjoys wide acclaim from buyers and new foodies both in Hong Kong and overseas. Due to the increasing demand for dried noodles in the consumer market, the company purchased a 10,000 sf factory in Tsuen Wan in 2003 to expand production. The "Duo9 Duo Fu" and "Gong YanYopin" brand series was launched. Committed to quality as always, Yeung's Company Limited insists on offering noodles made from the finest import high-gluten flour, and the "made in Hong Kong" brand name is an extra dose of confidence.
